

# DUTY RESUSCITATION TEAM

## Resus Co-ordinator /Scribe:

Doctor or nurse who is responsible for co-ordinating the resuscitation attempt, directing the team and staff on hand, and recording events as they happen.

## Resuscitator 1:

Doctor/nurse/HCA/first aider who will go straight to the patient and commence 30 chest compressions and 2 rescue breaths via bag/mask kit as per RCUK BLS algorithm. **Mouth to mouth ventilation or pocket mask are not advised.**

## Resuscitator 2:

Doctor/nurse/HCA/first aider who will get the defibrillator and oxygen and attach to patient. The team then follows direction from AED.

## Admin:

Member of admin staff will stay on hand but standing well back (at least 2 metres and wearing minimum PPE. They will call ambulance/update ambulance and get further help/equipment as requested by the Resuscitation Co-ordinator.

## Outside Responder (POD 7):
