

POD BOX CONTENTS

This Pod box is primarily a clean clinical supplies box and is the responsibility of the vaccinator/consenter

Please ensure that your Pod Box only contains the following:

Clinical

- X2 Faceshields (for use where patient is not wearing a mask)
- X2 Aprons (for emergency **NOT** routine use)
- X3 sets of 2 gloves – S,M,L (for emergency **NOT** routine use)
- X1 box of Fluid-Resistant Surgical Masks Type IIR
- X1 roll clinical tape
- Cotton wool balls
- X2 kidney bowls (to be disposed of and replaced once used)
- Clinell wipes
- Alcohol Gel
- Pod laminate
- Consenters information laminate.
- Pod folder

Admin

- Vaccination cards
- Leave-time paper slips
- Ethnicity laminate
- Batch number/expiry laminate
- Confidential waste folder
- X2 biros
- X1 dry-wipe pen
- Clock

*Please **do not** routinely use stickers. One sheet is available in back of pod folder for exceptional circumstances only.

**Side effects leaflets are offered at the door or patient can be directed to pick one up from the marshals in the observation area. If you feel you must use these leaflets, please do not put them in the pod box at the end of the session.

***Paper towels **should not** be used routinely to dry chairs although it is acknowledged that the wipes can get very wet towards the bottom of the packet. Please only take what you need and do not store them in the pod box.
